## -1-(Twice amended)

A composition for treating an equid infected with Sarcocystis neurona comprising a mixture of isolated antibodies against a 16 ±4 kDa antigen of Sarcocystis neurona and isolated antibodies against a 30 ±4 kDa antigen of Sarcocystis neurona.

## -2-(Amended)

The composition of Claim 1 wherein the antibodies are selected from the group consisting of polyclonal antibodies and monoclonal antibodies.

13

## -3-(Amended)

The composition of claim 1 wherein the composition is provided in a pharmaceutically accepted carrier.

## -21-(Twice amended)

A method for treating an equid infected with Sarcocystis neurona comprising:

- (a) providing antibodies against a 16 ±4 kDa antigen and a 30 ±4 kDa antigen both of which are specific to Sarcocystis neurona wherein the antibodies are selected from the group consisting of polyclonal antibodies and monoclonal antibodies; and
- (b) inoculating the equid with the antibodies to treat the equid.
